About Our Company

01

Established in 2015, Vanguard Trading over the years has grown into an international trading company in petroleum products in a short period of time. Extensive knowledge and network of our company enabled itself to reach out to many clients and suppliers worldwide.

02

Our global operations are supported by our offices in Istanbul and Dubai.

We focus on sourcing and supplying Light End, Middle Distillates and Heavy Ends from refineries and reliable partners all over the world.

Our commitment to excellence and unwavering focus on quality ensure that each product we offer is meticulously sourced, refined and distributed to meet the highest industry standards.

03

We embrace innovation in trade and supply chain optimization amidst global volatility.

We foster a culture of learning and deeper understanding of specific products by investing in the development of our teams.

About the Founder

Mr. Can Uzunhekim, the founder of Vanguard Trading, brings more than 15 years of expertise in the oil and gas industry. Prior to his role at Vanguard Trading Group, he oversaw operations for major international oil companies, gaining extensive experience in downstream distribution across multiple countries. With a global business perspective, he has built Vanguard into a prominent player in the industry.

International Connectivity

Established in the world's major trade hubs and financial markets with extensive client base and relations, we connect and serve both emerging and mature markets worldwide.

Vanguard Trading Group is a premier international commodity trading group focuses on sourcing and supplying petroleum products in European and Med markets with its presence in Istanbul and Dubai offices.

STORAGE TRADING CAPABILITIES

01

We source commodities from producers and suppliers worldwide.

02

Our extensive storage capabilities on Med Region for distilled products enable us to ensure smooth and cost-effective deliveries.

03

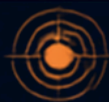

Oil and petroleum products such as gasoline, jet fuel, diesel and fuel oil are an essential part of the global energy mix today, used for transportation and by a wide range of industries. They will continue to play an important role in supporting growing global energy demand during the transition currently underway to a low-carbon economy.

04

We are actively engaged in the responsible supply of oil and petroleum products. We are committed to sustainable practices while meeting global energy demands.
